1.5 MW 2025 New Caterpillar 3512B Diesel Generator Sets

1.5 MW 2025 New Caterpillar 3512B Diesel Generator Sets

Description

This diesel generator set is a heavy-duty power generation unit designed to deliver reliable electrical power in both standby and prime applications. Powered by the proven 3512B V12 diesel engine, this generator offers dependable performance, fuel efficiency, and long operational life, even under continuous high-load conditions.

Ideal for industrial, commercial, utility, and remote applications, the generator set is configured to meet global performance and emissions standards. It is available in both open skid and fully enclosed, sound-attenuated formats and is designed for quick installation, seamless integration, and ease of maintenance.

KEY FEATURES:

- **Power Output:** Rated up to 1,500 ekW (1.5 MW) standby or continuous
- **Emissions Compliance:** Meets Tier 2 or equivalent international emissions standards
- **Mounting Options:** Available in open skid-mounted or containerized sound-attenuated enclosure

ADVANTAGES:

- **Rugged Construction:** Engineered for use in remote or harsh environments where consistent performance is critical
- **Scalable Integration:** Can be paralleled with other units for increased capacity or redundancy

Manufacturer	Caterpillar
Model	3512B
Year	2025
Condition	New
Location	North America
Qty Available	2 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010816
Wattage	1.5 MW
Hours	Zero
Frequency	60 Hz
Fuel Type	Diesel
Voltage	277/480 Volts
Balance of Plant Available? (BOP)	-
