2 MW 2013 Used Caterpillar XQ2000 Diesel Power Module Generator Sets

2 MW 2013 Used Caterpillar XQ2000 Diesel Power Module Generator Sets

Description

These mobile power modules are designed for reliable and efficient operation in demanding environments, providing flexible power solutions for prime, standby, or emergency applications. The unit is powered by the robust CAT 3516B engine, renowned for its durability, low fuel consumption, and dependable performance under continuous load.

Each generator set is housed in a sound-attenuated, weatherproof enclosure, ensuring quiet operation and protection from harsh environmental conditions. The units are fully integrated with digital controls, automatic voltage regulation, and advanced monitoring systems for safe, efficient, and user-friendly operation.

KEY FEATURES:

- Rated output: 2 MW (2000 kW) continuous power
- Enclosure: Sound-attenuated and weatherproof containerized module
- Mobility: Trailer or skid-mounted for rapid deployment

ADVANTAGES

- Modular and transportable design enables quick installation and relocation
- Easy integration into multi-unit power plants with synchronization capability
- Low fuel consumption and efficient performance under varying load conditions

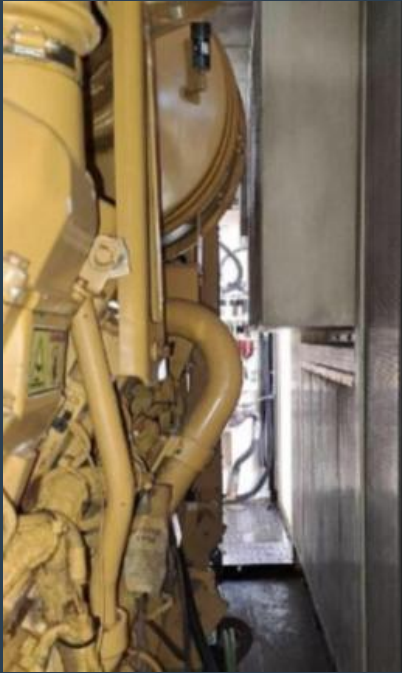

Manufacturer	Caterpillar
Model	XQ2000
Year	2013
Condition	Used
Location	Asia
Qty Available	8 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010687
Wattage	2 MW
Hours	60000 hours
Frequency	50/60 Hz
Fuel Type	Diesel
Voltage	480 Volts
Balance of Plant Available? (BOP)	-
