1.4 MW 2012 Refurbished Caterpillar XQ1475G Natural Gas Generator Sets

1.4 MW 2012 Refurbished Caterpillar XQ1475G Natural Gas Generator Sets

Description

This natural gas generator set delivers reliable and efficient power generation with a rated capacity of 1.4 MW. Fully refurbished to Caterpillar standards, the unit provides performance comparable to new equipment, offering dependable power for continuous or standby applications. Powered by the proven G3516C low-emission natural gas engine, the generator set ensures high efficiency, reduced operating costs, and excellent fuel flexibility. It is ideal for industrial facilities, utilities, and commercial operations seeking a sustainable and cost-effective energy solution.

KEY FEATURES:

- Rated Power Output: 1.4 MW (1475 kW)
- Emission Compliance: Low-emission, lean-burn technology meeting current standards
- Configuration: Containerized, sound-attenuated enclosure for flexible installation

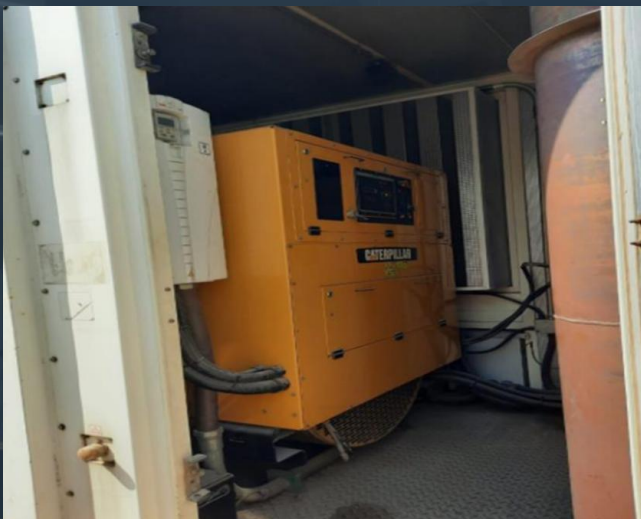

ADVANTAGES

- Factory-refurbished unit ensuring high reliability and extended service life
- Proven performance with natural gas for lower emissions and reduced fuel costs
- Rugged and weatherproof design suitable for diverse site conditions

Manufacturer	Caterpillar
Model	XQ1475G
Year	2012
Condition	Refurbished
Location	Europe
Qty Available	4 Units
Category	Natural Gas Generators
Subcategory	1 – 9 MW
Stock Number	USP010637
Wattage	1.4 MW
Hours	Zero
Frequency	50/60 Hz
Fuel Type	Natural Gas
Voltage	480 Volts
Balance of Plant Available? (BOP)	-
