5.6 MW 2017 New Solar Taurus T60 Natural Gas Generator Set

5.6 MW 2017 New Solar Taurus T60 Natural Gas Generator Set

Description

This unit is a reliable and efficient industrial gas turbine generator set designed for continuous and peak-load power generation applications. Manufactured in 2017, this new unit delivers approximately 5.6 MW (ISO) of electrical output, making it well-suited for utilities, industrial facilities, and distributed power projects. Built with a compact and modular design, the Taurus T60 incorporates proven gas turbine technology with low-emission combustion options to ensure compliance with environmental standards while maintaining high efficiency and dependable performance.

KEY FEATURES:

- Electrical output: ~5.6 MW (ISO rating)
- Natural gas-fueled with optional dual-fuel capability
- Equipped with SoLoNOx (Dry Low Emissions) combustion system for reduced NOx emissions

ADVANTAGES:

- **High reliability:** Proven track record of continuous operation with minimal downtime.
- **Fuel efficiency:** Optimized performance ensures reduced operating costs over long-term operation.

Manufacturer	Solar Taurus
Model	T60
Year	2017
Condition	New
Location	Asia
Qty Available	1 Unit
Category	Natural Gas Generators
Subcategory	1 – 9 MW
Stock Number	USP010837
Wattage	5.6 MW
Hours	Zero
Frequency	50 Hz
Fuel Type	Natural Gas
Voltage	10500
Balance of Plant Available? (BOP)	-
