1 MW 2016 Used Caterpillar G3516 Biogas Generator Set

1 MW 2016 Used Caterpillar G3516 Biogas Generator Set

Description

This generator set is designed to operate on biogas, providing a dependable and efficient renewable energy solution. The unit is built on the proven G3516 engine platform, specifically engineered for continuous power generation using low-energy fuels such as biogas from landfills, wastewater treatment plants, and agricultural operations.

The generator set combines robust construction with advanced controls, delivering stable performance, low operating costs, and compliance with environmental standards. Its capability to utilize biogas not only reduces waste emissions but also provides a cost-effective power generation option for industries seeking sustainable solutions.

KEY FEATURES:

- Rated output: 1 MW
- Emissions-compliant with renewable fuel application
- Biogas-fueled for renewable power generation

ADVANTAGES

- Reduced environmental footprint through lower emissions and waste gas utilization
- Suitable for industrial plants, utilities, agricultural facilities, and waste-to-energy projects

Manufacturer	Caterpillar
Model	G3516
Year	2016
Condition	Used
Location	Asia
Qty Available	3 Units
Category	Bio Gas
Subcategory	1 – 9 MW
Stock Number	USP010873
Wattage	1 MW
Hours	16000; 20000; 21000
Frequency	50 Hz
Fuel Type	Biogas
Voltage	10000
Balance of Plant Available? (BOP)	-
