Harnessing Energy for Life

3.7 MW 2015 New MTU 16V2000 M41B Diesel Generator Sets

3.7 MW 2015 New MTU 16V2000 M41B Diesel Generator Sets

Description

These compact yet powerful units are engineered to deliver reliable and efficient power for continuous, prime, or standby applications. Built on MTU's proven Series 2000 engine platform, they combine robust construction with advanced electronic management for exceptional performance, fuel efficiency, and low emissions.

The generator sets are designed for versatile industrial, marine, and utility applications, offering stable output under varying load conditions. Their modular configuration and advanced control systems ensure easy integration into existing power systems, making them ideal for both independent and parallel operation.

KEY FEATURES:

- Rated output: 3.7 MW Emission compliance: Meets international low-emission standards
- Fuel system: Common rail direct injection for precise fuel delivery and optimized efficiency
- Compact design with high power density for easy installation
- Low noise and vibration levels ensuring smooth operation
- High fuel efficiency resulting in reduced operating costs

ADVANTAGES

Manufacturer	MTU
Model	16V2000 M41B
Year	2015
Condition	New (Unused)
Location	Asia
Qty Available	4 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010887
Wattage	3.7 MW (0.9 MW per unit)
Hours	Zero
Frequency	60 Hz
Fuel Type	Diesel
Voltage	-
Balance of Plant Available? (BOP)	-
