1.6 MW 2011 Used Caterpillar G3520C Natural Gas Generator Set

1.6 MW 2011 Used Caterpillar G3520C Natural Gas Generator Set

Description

This natural gas generator set is a robust and efficient power solution designed for continuous and prime power applications. It is capable of delivering 1.6 MW of reliable electrical output. It operates at 60 Hz with high efficiency and reduced emissions, making it suitable for industrial facilities, utilities, and distributed generation projects. The generator set comes with Caterpillar’s advanced control and monitoring systems to ensure optimal performance, safe operation, and long-term durability. As a pre-owned unit, it offers a cost-effective solution for operators needing dependable large-scale gas power backed by Caterpillar’s reputation for reliability.

KEY FEATURES:

- Rated at 1.6 MW (1600 kW) continuous power output
- Turbocharged and after-cooled for improved performance
- Designed for continuous duty and high efficiency

ADVANTAGES:

- Lower emissions and better fuel flexibility compared to diesel units
- Built for long service life with durable engine and generator components
- Ideal for industrial, utility, and distributed generation applications

Manufacturer	Caterpillar
Model	G3520C
Year	2011
Condition	Used
Location	South America
Qty Available	1 Unit
Category	Natural Gas Generators
Subcategory	1 – 9 MW
Stock Number	USP010483
Wattage	1.6 MW
Hours	72000
Frequency	60 Hz
Fuel Type	Natural Gas
Voltage	480 Volts
Balance of Plant Available? (BOP)	-
