Set

# 3 MW 2006 Used Solar Centaur 40 Natural Gas Turbine Generator Set

## Description

This is a natural gas turbine generator set manufactured in 2006, designed for industrial, utility, and decentralized power generation applications. The package consists of a compact industrial gas turbine coupled to a synchronous generator, delivering reliable electrical output with relatively low emissions and fast response characteristics. It is well suited for continuous, prime, or standby duty, particularly in locations with stable natural gas availability.

The generator set is engineered for high availability and operational flexibility, making it suitable for pipelines, processing plants, small power stations, and remote installations.

### KEY FEATURES:

- Rated output: 3,000 kW (3 MW)
- Compact footprint suitable for modular installations
- Designed for continuous, prime, or standby operation

### ADVANTAGES

- Reliable and proven technology with extensive operating history
- Faster start-up compared to large frame gas turbines
- Reduced emissions relative to liquid-fueled alternatives

<b>Manufacturer</b>	Solar
<b>Model</b>	Centaur 40
<b>Year</b>	2006
<b>Condition</b>	Used
<b>Location</b>	Asia
<b>Qty Available</b>	2 Units
<b>Category</b>	Natural Gas Turbines
<b>Subcategory</b>	1 – 9 MW
<b>Stock Number</b>	USP010918
<b>Wattage</b>	3 MW
<b>Hours</b>	60000 hours
<b>Frequency</b>	50 Hz
<b>Fuel Type</b>	Natural Gas
<b>Voltage</b>	3300 Volts
<b>Balance of Plant Available? (BOP)</b>	-
