1.6 MW 2008 Used Caterpillar 3516 Diesel Generator Set

1.6 MW 2008 Used Caterpillar 3516 Diesel Generator Set

Description

This generator set is powered by an industrial diesel engine, manufactured in 2008, and rated at approximately 1.6 MW electrical output. It is designed for dependable performance in prime or standby power applications across industrial, commercial, and utility sectors. The unit features a robust V16, four-stroke configuration, ensuring high reliability, long service life, and efficient operation under continuous load conditions. With its proven mechanical design and well-established parts availability, the set offers a practical solution for both standalone and grid-connected installations.

KEY FEATURES:

- 1.6 MW continuous power output capacity
- Skid-mounted assembly for easy installation and maintenance
- Radiator-cooled system for efficient heat management

ADVANTAGES

- Suitable for continuous, standby, or emergency power supply
- Suitable for continuous, standby, or emergency power supply
- Well-suited for industrial, commercial, and remote site operations

Manufacturer	Caterpillar
Model	3516
Year	2008
Condition	Used
Location	Asia
Qty Available	1 Unit
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010902
Wattage	1.6 MW
Hours	1800 hours
Frequency	50 Hz
Fuel Type	Diesel
Voltage	400 Volts
Balance of Plant Available? (BOP)	-
