1.7 MW 2018 New MTU 12V4000L32F Biogas Generator Set

1.7 MW 2018 New MTU 12V4000L32F Biogas Generator Set

Description

This biogas generator set is a high-performance power generation unit designed to deliver reliable electricity from renewable biogas sources. Equipped with the MTU 12V4000L32F, a 12-cylinder, turbocharged gas engine, this generator set provides 1.7 MW of continuous electrical output with high efficiency and low emissions. Manufactured in 2018 and in new condition, it is ideally suited for waste-to-energy, agricultural, and industrial biogas applications.

KEY FEATURES:

- Rated output: 1.7 MW
- Specifically designed for renewable biogas applications
- Low-emission combustion system compliant with environmental standards

ADVANTAGES:

- High efficiency and stable power output for continuous operation
- Cost-effective renewable energy solution for industrial and agricultural facilities
- Flexible application in combined heat and power (CHP) systems for enhanced energy efficiency

Manufacturer	MTU
Model	12V4000L32F
Year	2018
Condition	New
Location	Asia
Qty Available	14 Units
Category	Bio Gas
Subcategory	1 – 9 MW
Stock Number	USP010839
Wattage	1.7 MW
Hours	Zero
Frequency	50 Hz
Fuel Type	Biogas
Voltage	10500 Volts
Balance of Plant Available? (BOP)	-
