Harnessing Energy for Life

1.8 MW 2012 Used Cummins QSK60-G8 Diesel Generator Sets

1.8 MW 2012 Used Cummins QSK60-G8 Diesel Generator Sets

Description

This used diesel generator set is powered by the Cummins QSK60-G8 engine, a robust and efficient power unit engineered for heavy-duty industrial and commercial applications. The set offers reliable performance, high fuel efficiency, and long service life, making it suitable for continuous, prime, or standby power generation. Its durable design and advanced control features ensure stable operation and dependable performance even under demanding conditions.

Built for consistent output and ease of maintenance, the unit combines Cummins’ proven engine technology with a high-quality alternator and control system that provides comprehensive monitoring and protection. It is ideal for use in industrial facilities, data centers, utilities, and remote-site power generation.

KEY FEATURES:

- Rated output: 1.8 MW
- Digital control panel with advanced protection and diagnostics
- Skid-mounted or containerised installation options

ADVANTAGES

- Excellent fuel efficiency and low lifecycle cost
- Rugged construction for dependable performance in harsh environments
- Stable voltage and frequency output for critical loads

Manufacturer	Cummins
Model	QSK60-G8
Year	2012
Condition	Used
Location	Asia
Qty Available	9 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010572
Wattage	1.8 MW
Hours	100
Frequency	50 Hz
Fuel Type	Diesel
Voltage	400 Volts
Balance of Plant Available? (BOP)	-
