1.6 MW 2016 Used Caterpillar 3512C Diesel Generator Sets (Enclosed Together)

1.6 MW 2016 Used Caterpillar 3512C Diesel Generator Sets (Enclosed Together)

Description

These diesel generator sets, manufactured in 2016, are high-performance power units designed for reliable operation in continuous or standby applications. The sets are enclosed together within a weatherproof acoustic housing, offering protection from environmental elements and reduced noise emissions. Powered by Caterpillar’s 3512C engines, they deliver dependable power output with excellent fuel efficiency, low operating costs, and long service life. The units are ideally suited for industrial, commercial, or backup power installations requiring robust and efficient generation capacity.

KEY FEATURES:

- Total rated output: 1,600 kW (1.6 MW)
- Enclosed configuration providing weather and sound attenuation
- Designed for low fuel consumption and reduced emissions
- Heavy-duty construction for continuous-duty or standby use

ADVANTAGES

- Efficient power generation with excellent load acceptance
- Enclosed design reduces noise and simplifies outdoor installation
- Durable, field-proven design ensuring consistent performance in demanding conditions

Manufacturer	Caterpillar
Model	3512C
Year	2016
Condition	Used
Location	United States
Qty Available	2 Units
Category	Diesel Generators
Subcategory	1 - 9 MW
Stock Number	USP010771
Wattage	1.6
Hours	200
Frequency	60 Hz
Fuel Type	Diesel
Voltage	480 Volts
Balance of Plant Available? (BOP)	-
