1.4 MW 2005 Used Jenbacher JGC 420 GS Natural Gas Generator Sets

1.4 MW 2005 Used Jenbacher JGC 420 GS Natural Gas Generator Sets

Description

These generator set are designed for reliable continuous power generation. The units are optimized for efficiency, durability, and stable performance when operating on natural gas. They are well-suited for industrial facilities, utilities, and combined heat and power (CHP) applications.

With advanced combustion technology, these generator sets deliver low emissions while maintaining high fuel efficiency. Their modular design allows for straightforward installation and integration into existing power systems, while robust engineering ensures long service life and dependable operation under varying load conditions.

KEY FEATURES:

- Rated output: 1.4 MW
- Emissions-optimized combustion technology
- Suitable for combined heat and power (CHP) configurations

ADVANTAGES

- Low emissions profile, meeting environmental compliance requirements
- Modular configuration for easy installation and system integration
- Excellent fuel efficiency for cost-effective operation

Manufacturer	Jenbacher
Model	JGC 420 GS
Year	2005
Condition	Used
Location	Asia
Qty Available	2 Units
Category	Natural Gas Generators
Subcategory	1 – 9 MW
Stock Number	USP010421
Wattage	1.4 MW
Hours	24000; 24500
Frequency	50 Hz
Fuel Type	Natural Gas
Voltage	400 Volts
Balance of Plant Available? (BOP)	-
