

# SPECIFICATIONS

## 1.8 MW 2021 Used Caterpillar Diesel Generator Sets

# 1.8 MW 2021 Used Caterpillar Diesel Generator Sets

## Description

This diesel generator set, produced in 2021, is engineered for reliable, high-output power generation in challenging industrial settings. The generator is equipped with a Caterpillar 3516C turbocharged aftercooled V16 engine and a brushless alternator, providing reliable power output for prime or standby applications. It features advanced control systems for monitoring and protection, and is radiator-cooled with a robust skid-mounted frame

### KEY FEATURES:

- **Mounting:** Factory skid-mounted with vibration isolation
- **Frequency:** Configurable for 50 Hz or 60 Hz applications
- **Cooling:** Integral radiator-cooled system for self-contained operation

### ADVANTAGES:

- Flexible voltage configuration to match site or grid requirements
- Fast response time suitable for critical load applications
- Capable of handling continuous, prime, or standby power requirements

Manufacturer	Caterpillar
Model	3516C
Year	2021
Condition	Used
Location	Asia
Qty Available	9 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010787
Wattage	1.8
Hours	100
Frequency	50 Hz
Fuel Type	Diesel Oil
Voltage	10500 Volts
Balance of Plant Available? (BOP)	-
