Harnessing Energy for Life

1.9 MW 2015 Used MAN 9L21/31 Diesel Generator Sets

1.9 MW 2015 Used MAN 9L21/31 Diesel Generator Sets

Description

This diesel generator set provides dependable medium-speed power generation for industrial and utility-scale applications. Manufactured in 2015 and maintained to operational standards, the set is designed for efficiency, durability, and extended service life. With a proven track record in heavy-duty environments, it delivers stable output for both base-load and backup power requirements. The medium-speed operation ensures smoother performance with reduced mechanical stress, supporting lower lifecycle costs. In addition, the set meets emission compliance standards, making it suitable for regions with regulated environmental requirements.

KEY FEATURES:

- Rated output: 1.9 MW
- Emission-compliant for regulated operational environments
- Flexible operation for base-load or standby requirements

ADVANTAGES

- Improved fuel economy, reducing operating expenditure
- Environmentally compliant with reduced exhaust emissions
- Delivers reliable and consistent power output

Manufacturer	MAN
Model	9L21/31
Year	2015
Condition	Used
Location	Asia
Qty Available	1 Unit
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010256
Wattage	1.9 MW
Hours	10000
Frequency	50 Hz
Fuel Type	Diesel
Voltage	6600 Volts
Balance of Plant Available? (BOP)	-
