1.5 MW 2013 Used MWM TCG2020V16 Natural Gas Generator Set

1.5 MW 2013 Used MWM TCG2020V16 Natural Gas Generator Set

Description

This natural gas generator set offers a reliable and efficient solution for continuous, prime, or standby power generation. Designed for high electrical efficiency and operational reliability, it is well-suited for industrial, commercial, or utility-scale projects. The unit is designed for long operating life and high fuel efficiency in demanding industrial or commercial environments. It features a robust V16 lean-burn engine, engineered for stable operation with low emissions and high electrical output. The generator set is ideal for grid-parallel operation or integration into combined heat and power (CHP) systems.

KEY FEATURES:

- **Exhaust & Emissions:** Designed for low NOx and CO emissions, compliant with various environmental standards
- **Cooling System:** Separate high-temperature (HT) and low-temperature (LT) circuits, radiator-compatible
- **Mounting:** Skid-mounted, compact design

ADVANTAGES :

- Lower emissions and environmental footprint.
- Engineered for continuous-duty applications with long service intervals
- High electrical efficiency, reducing fuel costs per kWh

Manufacturer	MWM
Model	TCG2020V16
Year	2013
Condition	Used
Location	Europe
Qty Available	1 Unit
Category	Natural Gas Generator
Subcategory	1 – 9 MW
Stock Number	USP010785
Wattage	1.5
Hours	39000
Frequency	50 Hz
Fuel Type	Natural Gas
Voltage	400 Volts
Balance of Plant Available? (BOP)	-
