1.3 MW 2008 Used Caterpillar 35 16 Diesel Generator Set

1.3 MW 2008 Used Caterpillar 3516 Diesel Generator Set

Description

This diesel generator set is a reliable, heavy-duty power solution designed for continuous or standby applications. With a rated capacity of 1.3 MW, it is suitable for industrial facilities, utilities, and backup power systems requiring robust and proven performance. The 3516 series is widely recognized for its durability, fuel efficiency, and ease of maintenance, making it one of the most popular choices in the large diesel genset market.

KEY FEATURES:

- **Power Output:** 1.3 MW (continuous rating, subject to site conditions)
- **Configuration:** Skid-mounted, with integral fuel and lubrication systems

ADVANTAGES:

- **Fuel Efficiency:** Optimized combustion system for reduced fuel consumption.
- **Versatility:** Suitable for prime, continuous, or standby power applications.

Manufacturer	Caterpillar
Model	3516
Year	2008
Condition	Used
Location	Australia
Qty Available	1
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010226
Wattage	1.3 MW
Hours	400
Frequency	50 Hz
Fuel Type	Diesel
Voltage	-
Balance of Plant Available? (BOP)	-
