Harnessing Energy for Life

2 MW 2011 Used Caterpillar
3516B Diesel Generator Set

2 MW 2011 Used Caterpillar 3516B Diesel Generator Set

Description

This is a diesel generator set manufactured in 2011, designed for continuous and standby power generation applications. The unit is based on a high-speed, turbocharged, V-configuration diesel engine coupled to a synchronous alternator, delivering reliable electrical output for industrial, utility, and large commercial users. The generator set is suitable for base-load, peak shaving, or emergency backup service, depending on site configuration and duty cycle.

KEY FEATURES:

- Rated electrical output: ~2,000 kW (2 MW)
- Designed for continuous, prime, or standby duty
- Compatible with standard generator control and protection systems

ADVANTAGES

- Suitable for rapid deployment and short project timelines
- High reliability for critical and mission-essential loads
- Flexible application across multiple operating profiles

Manufacturer	Caterpillar
Model	3516B
Year	2011
Condition	Used
Location	Asia
Qty Available	3 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010956
Wattage	2 MW
Hours	500 Only
Frequency	50 Hz
Fuel Type	Diesel
Voltage	400 Volts
Balance of Plant Available? (BOP)	-
