1.2 MW Used Caterpillar 3512B Diesel Generator Set

1.2 MW Used Caterpillar 3512B Diesel Generator Set

Description

This reliable diesel generator set delivers 1.2 MW of dependable prime or standby power for industrial and commercial operations. The set offers excellent fuel efficiency, low maintenance requirements, and long service life. It is suitable for both continuous and backup applications in sectors such as manufacturing, mining, and utilities. The generator features advanced engine controls for optimal performance and protection, ensuring consistent power output even under demanding load conditions. Its heavy-duty design allows for smooth operation in harsh environments, while maintaining low vibration and noise levels.

KEY FEATURES:

- Rated output: 1.2 MW
- Ideal for prime or standby operation
- Designed for quick start-up and stable voltage regulation

ADVANTAGES

- Durable construction for continuous heavy-duty performance
- Suitable for integration into existing or new power systems

Manufacturer	Caterpillar
Model	3512B
Year	
Condition	Used
Location	Asia
Qty Available	6 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010878
Wattage	1.2 MW
Hours	22000; 20000; 19000; 6000; 21100; 25000
Frequency	50 Hz
Fuel Type	Diesel
Voltage	400 Volts
Balance of Plant Available? (BOP)	-
