## 2 MW 2008 Used Cummins QSK60-G6 Diesel Generator Set (Containerised)

# 2 MW 2008 Used Cummins QSK60-G6 Diesel Generator Set (Containerised)

## Description

The diesel generator set is a high-capacity, containerised power solution designed for reliable performance in continuous or standby applications. It delivers 2000 kW at 50 Hz with excellent fuel efficiency, durability, and ease of maintenance. Housed in a purpose-built container, the generator set offers mobility, noise attenuation, and integrated systems for simplified deployment in industrial, commercial, and utility applications.

### KEY FEATURES:

- **Power Output:** 2 MW (2000 kW) at 50 Hz, suitable for large-scale power needs.
- **Containerised Design:** Factory-built enclosure for weather protection, portability, and reduced installation time.
- **Fuel Type:** Operates on diesel, with good fuel consumption efficiency for its class.

### ADVANTAGES:

- **Versatility:** Suitable for prime, standby, or emergency power in industrial plants, mining, data centres, and utilities.
- **Ease of Deployment:** Containerised build allows rapid installation, mobility, and secure housing.

Manufacturer	Cummins
Model	QSK60-G6
Year	2008
Condition	Used
Location	North America
Qty Available	1 Unit
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010673
Wattage	2 MW
Hours	4000
Frequency	60 Hz
Fuel Type	Diesel
Voltage	480 Volts
Balance of Plant Available? (BOP)	-
