5.5 MW 2023 New Solar Taurus T60 Natural Gas Generator Set

5.5 MW 2023 New Solar Taurus T60 Natural Gas Generator Set

Description

This natural gas generator set is a high-efficiency industrial gas turbine system engineered for reliable and continuous power generation. Manufactured by Solar Turbines, the Taurus T60 series is well-regarded for its compact modular design, low emissions, and strong performance across diverse operating conditions. This new unit is suitable for power generation, mechanical drive, and combined heat and power (CHP) applications, delivering dependable operation with reduced environmental impact.

KEY FEATURES:

- Rated output: 5.5 MW
- Low-emission combustion system (SoLoNOx)
- Designed for high availability and quick startup capability

ADVANTAGES

- Low operating and maintenance costs due to robust turbine design
- Compact modular design simplifies installation and integration
- Suitable for continuous, standby, and CHP applications
