4 MW 2024 New MAN 18V28/32 HFO/Diesel Generator Set

4 MW 2024 New MAN 18V28/32 HFO/Diesel Generator Set

Description

This new generator set is a medium-speed, heavy-duty power generation unit designed for reliable base-load or continuous-duty applications. Powered by an 18-cylinder V-type engine with a bore of 280 mm and stroke of 320 mm, the set delivers approximately 4 MW of electrical output at 750 rpm and 50 Hz. It operates on both Heavy Fuel Oil (HFO) and diesel, offering fuel flexibility based on availability and cost. Delivered unused with zero running hours, this generator set is ideally suited for industrial plants, remote power stations, and marine or islanded grids.

KEY FEATURES:

- **Fuel Type:** Heavy Fuel Oil (HFO) with diesel start/backup capability
- **Emissions Compliance:** IMO Tier II capable (depending on configuration)

ADVANTAGES :

- **Compact Footprint:** Suitable for containerization and modular power plants.
- **High Fuel Flexibility:** Operates on HFO or diesel, allowing for operational cost optimization.

Manufacturer	MAN
Model	18V28/32
Year	2024
Condition	New
Location	Asia
Qty Available	1 Unit
Category	HFO Generators
Subcategory	1 – 9 MW
Stock Number	USP010788
Wattage	4 MW
Hours	Zero
Frequency	50 Hz
Fuel Type	HFO/Diesel
Voltage	6300 Volts
Balance of Plant Available? (BOP)	-
