1.2 MW 2015 New MWM TCG 2020V12 Natural Gas Generator Set

Description

This 1.2 MW natural gas generator set is a 2015-manufactured unit offered in new, zero-hour surplus condition. Built for reliable continuous-duty performance, it is suitable for operation on pipeline natural gas or landfill gas. The package includes the engine, alternator, cooling system, control components, and key auxiliary equipment, making it a well-rounded solution for industrial power generation, distributed energy projects, or renewable gas-to-power applications.

KEY FEATURES:

- Capable of running on natural gas or landfill gas
- Suitable for baseload, CHP, or distributed generation
- **1.2 MW electrical output** for mid-scale power applications

ADVANTAGES

- **Zero-hour condition** reduces commissioning and operational risk
- **Robust design** for long-term continuous operation and high efficiency
- Ideal for industrial facilities, utilities, and renewable energy integration
