1 MW 2020 Used MWM TBG620V016K Natural Gas Generator Sets

1 MW 2020 Used MWM TBG620V016K Natural Gas Generator Sets

Description

This is a high-performance, V16-cylinder natural gas generator set designed for continuous and standby power applications. It combines fuel efficiency with reliable power output, making it suitable for industrial, commercial, or grid-support operations. Operating on natural gas, the engine offers cleaner combustion compared to diesel units, supporting reduced emissions and compliance with tightening environmental standards.

KEY FEATURES:

- **Efficient Natural-Gas Firing:** Cleaner emissions compared to diesel; compatible with pipeline or biogas feeds.
- **Fuel Type:** Natural gas (also biogas or landfill gas depending on setup).
- **Containerized Design:** Simplifies installation, transport, and noise mitigation.

ADVANTAGES:

- **Versatile Applications:** Suitable for CHP systems, industrial facilities, data centers, and remote off-grid operations.
- **Industrial-Grade Build:** Designed for long service life and reliable operations in demanding environments.
- **Clean and Cost-Effective Fuel:** Natural gas offers lower emissions and fuel costs, especially in well-supplied regions.

Manufacturer	MWM
Model	TBG620V016K
Year	2020
Condition	Used
Location	Asia
Qty Available	3 Units
Category	Natural Gas Generators
Subcategory	1 – 9 MW
Stock Number	USP010665
Wattage	1 MW
Hours	32000
Frequency	50 Hz
Fuel Type	Natural Gas
Voltage	400 Volts
Balance of Plant Available? (BOP)	-
