2.5 MW 1987 Used Caterpillar 3608 Diesel Generator Set

2.5 MW 1987 Used Caterpillar 3608 Diesel Generator Set

Description

This 2.5 MW used diesel generator set, manufactured in 1987, is designed for continuous or standby power generation in industrial, marine, and utility applications. Built for durability and long-term operation, the unit delivers stable electrical output with efficient fuel performance and reliable mechanical design. The medium-speed diesel engine provides strong torque characteristics, making it well suited for heavy-duty power generation and load-bearing environments.

KEY FEATURES:

- Rated electrical output: 2.5 MW
- Robust mechanical design for continuous-duty operation
- Skid-mounted configuration for simplified installation and maintenance

ADVANTAGES

- Proven reliability and durability for industrial or base-load operation
- Strong fuel efficiency and low lifecycle cost for large-scale applications
- Capable of operating efficiently under varying load conditions

Manufacturer	Caterpillar
Model	3608
Year	1987
Condition	Used
Location	Europe
Qty Available	2 Unit
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010374
Wattage	2.5 MW
Hours	400 hours
Frequency	60 Hz
Fuel Type	Diesel
Voltage	6600 Volts
Balance of Plant Available? (BOP)	-
