2 MW 2005 Used Caterpillar G3520C Natural Gas Generator Set

2 MW 2005 Used Caterpillar G3520C Natural Gas Generator Set

Description

This natural gas generator set is a medium-speed power generation unit designed for continuous and prime duty applications. Running on natural gas, it provides a cost-effective and environmentally friendlier alternative to traditional diesel units. This generator set is engineered to deliver reliable electrical output while maintaining efficiency, making it suitable for industrial facilities, utilities, and independent power producers.

It offers proven performance with a strong operational track record. The G3520C platform is widely recognized for its durability, serviceability, and fuel efficiency, ensuring dependable operation under varying load conditions.

KEY FEATURES:

- 2 MW rated electrical output
- Medium-speed design optimized for continuous operation
- Capable of parallel operation with other units for expanded capacity

ADVANTAGES

- Cost-effective solution with lower fuel costs compared to diesel engines
- Reduced emissions profile compared to heavy fuel or diesel-fired units
- Flexible application for base-load, prime power, or standby operation

Manufacturer	Caterpillar
Model	G3520C
Year	2005
Condition	Used
Location	Asia
Qty Available	1 Unit
Category	Natural Gas Generators
Subcategory	1 – 9 MW
Stock Number	USP010688
Wattage	2 MW
Hours	24000
Frequency	50 Hz
Fuel Type	Natural Gas
Voltage	400 Volts
Balance of Plant Available? (BOP)	-
