15 MW 2016 New Solar Titan 130 Dual Fuel Turbine Generator Set (Natural Gas & Diesel)

15 MW 2016 New Solar Titan 130 Dual Fuel Turbine Generator Set (Natural Gas & Diesel)

Description

This generator set is configured for dual-fuel operation, using natural gas as the primary fuel and diesel or distillate as standby. It is designed for continuous, heavy-duty power generation in industrial, utility, or oil & gas plant environments. The unit combines a high-performance industrial gas turbine with an integrated generator, and advanced control system. Its robust construction allows reliable operation under demanding conditions, while the modular design facilitates maintenance, parts replacement, and potential upgrades over its operational life. With low-emission combustion options available, the generator set can meet stringent environmental regulations while providing efficient, stable power for baseload, standby, or hybrid generation applications.

KEY FEATURES:

- **Rated electrical output** of ~15 MW.
- **Dual-fuel capability:** natural gas primary, diesel/distillate secondary for flexibility and reliability.
- Low-emissions combustion options (SoLoNOx / Dry-Low-NOx) to reduce NOx output.

ADVANTAGES

- **Continuous duty suitability** – Optimized for baseload operation, delivering stable, reliable power for extended periods.
- **Turn-key solution** – Integrated systems reduce installation time, simplify commissioning, and minimize integration complexity.

Manufacturer	Solar Titan
Model	130
Year	2016
Condition	New (Unused)
Location	Asia
Qty Available	1 Unit
Category	Natural Gas Turbines
Subcategory	10 – 99 MW
Stock Number	USP010744
Wattage	15 MW
Hours	Zero
Frequency	50 Hz
Fuel Type	Dual Fuel (Natural Gas, Diesel)
Voltage	11000 Volts
Balance of Plant Available? (BOP)	-
