57.9 MW 2014 Used MAN 18V48/60TS Diesel Power Plant Gensets

57.9 MW 2014 Used MAN 18V48/60TS Diesel Power Plant Gensets

Description

This is a high-output, medium-speed diesel engine generator set engineered for utility-scale and industrial power generation. Manufactured in 2014 and configured for a total installed capacity of 57.9 MW, these units are designed for continuous baseload or standby operation in demanding environments. The 18-cylinder V-type twin-stage turbocharged design delivers exceptional fuel efficiency, fast load response, and reliable performance under heavy-duty conditions.

KEY FEATURES:

- Total installed capacity: 57.9 MW
- Engine configuration: 18-cylinder V-type, twin-stage turbocharged
- Built for long operational life with heavy-duty construction

ADVANTAGES :

- Large-scale power output suitable for utility and industrial grids
- Rapid load acceptance ideal for grid stability and peak shaving
- Twin-stage turbocharging ensures high efficiency and stable performance under varying loads

Manufacturer	MAN
Model	18V48/60TS
Year	2014
Condition	Used
Location	Asia
Qty Available	3 Units
Category	Diesel Generators
Subcategory	10 – 99 MW
Stock Number	USP010545
Wattage	57.9 MW (20 MW Per Unit)
Hours	10400
Frequency	50 Hz
Fuel Type	Diesel
Voltage	400 Volts
Balance of Plant Available? (BOP)	-
