2 MW 2005 Used Caterpillar 3516B Diesel Generator Set

2 MW 2005 Used Caterpillar 3516B Diesel Generator Set

Description

This diesel generator set is a high-capacity power generation unit designed for reliable standby and continuous-duty applications. The Caterpillar 3516B engine is part of Cat's proven 3500 series, known for durability, efficiency, and long operating life in demanding conditions. With a prime output of 2 MW, this generator set is suitable for industrial facilities, utilities, and large-scale power projects requiring dependable diesel-powered generation.

Built for heavy-duty operation, it is equipped with a turbocharged aftercooled V16 engine, delivering high performance with excellent load acceptance. The unit offers flexibility for both island mode and grid-parallel operation, making it adaptable to a wide range of power needs.

KEY FEATURES:

- **Power Output:** 2 MW
- **Operation:** Continuous or standby duty, with grid-synchronization capability
- **Configuration:** Stationary generator set on skid/baseframe

ADVANTAGES:

- **Fuel Efficiency:** Optimized combustion system for reduced fuel consumption per kWh.
- **Versatility:** Suitable for prime, standby, or load management applications.

Manufacturer	Caterpillar
Model	3516B
Year	2005
Condition	Used
Location	Asia
Qty Available	1 Units
Category	Diesel Generators
Subcategory	1 - 9 MW
Stock Number	USP010712
Wattage	2 MW
Hours	700x
Frequency	60 Hz
Fuel Type	Diesel
Voltage	480
Balance of Plant Available? (BOP)
