1.5 MW 2016 New Caterpillar 3516C Natural Gas Generator Sets

1.5 MW 2016 New Caterpillar 3516C Natural Gas Generator Sets

Description

These generator sets are engineered for reliable and efficient continuous and prime power generation. Designed for industrial, utility, and distributed energy applications, they deliver stable electrical output while maintaining fuel flexibility and reduced emissions. The robust V16 engine design ensures durability under heavy loads, with advanced control and monitoring systems that enhance operational safety and efficiency.

With a proven track record in both standby and continuous duty, these generator sets combine performance with cost-effectiveness, making them suitable for a wide range of installations where dependable power is essential.

KEY FEATURES:

- Rated output: 1.5 MW
- Low-emission, fuel-efficient operation
- Suitable for continuous and prime power applications
- High-efficiency alternator for reliable power delivery

ADVANTAGES

- Delivers reliable power output with proven natural gas technology
- Flexible installation options for industrial, commercial, or utility-scale use
- Environmentally friendly operation with reduced emissions

|-----------------------------------|------------------------|
| Manufacturer | Caterpillar |
| Model | 3516C |
| Year | 2016 |
| Condition | New |
| Location | Asia |
| Qty Available | 5 Units |
| Category | Natural Gas Generators |
| Subcategory | 1 – 9 MW |
| Stock Number | USP010702 |
| Wattage | 1.5 MW |
| Hours | Zero |
| Frequency | 60 Hz |
| Fuel Type | Natural Gas |
| Voltage | 690 Volts |
| Balance of Plant Available? (BOP) | - |
