1.5 MW 2025 New MTU 12V4000L64FNER Natural Gas Generator Set

1.5 MW 2025 New MTU 12V4000L64FNER Natural Gas Generator Set

Description

This generator set is designed for efficient, reliable, and environmentally friendly power generation. Housed in a fully containerised package, the unit offers a compact and transportable solution that simplifies installation and operation. It is engineered for continuous duty applications with advanced combustion technology that ensures high fuel efficiency and low emissions. The integrated control and monitoring system provides precise load management, while the containerised design incorporates ventilation, noise insulation, and auxiliary systems for a turnkey power solution.

KEY FEATURES:

- Rated output: 1.5 MW
- Containerised design for easy transport and installation
- Advanced low-emission combustion system

ADVANTAGES

- Low emissions profile meeting stringent environmental standards
- Ease of operation with integrated controls and monitoring
- High efficiency and stable performance for continuous power generation

Manufacturer	MTU
Model	12V4000L64NER
Year	2025
Condition	New
Location	Asia
Qty Available	1 Unit
Category	Natural Gas Generators
Subcategory	1 – 9 MW
Stock Number	USP010698
Wattage	1.5 MW
Hours	Zero
Frequency	50 Hz
Fuel Type	Natural Gas
Voltage	11000 Volts
Balance of Plant Available? (BOP)	-
