2 MW 2005 Used Caterpillar 3516 Diesel Generator Sets

2 MW 2005 Used Caterpillar 3516 Diesel Generator Sets

Description

These diesel generator sets are heavy-duty power units designed for reliable performance in continuous, standby, and prime power applications. Built on Caterpillar’s proven 3516 engine platform, they deliver consistent electrical output with strong fuel efficiency and durability, making them suitable for industrial plants, commercial facilities, and utility operations.

The generator sets are engineered to provide dependable power under varying load conditions while maintaining stable voltage and frequency. With a rugged design and long service life, they are well-regarded for their ability to operate in demanding environments

KEY FEATURES:

- Rated output: 2 MW
- Heavy-duty alternator for stable power generation
- Designed for continuous and standby duty applications

ADVANTAGES

- Proven reliability in industrial and commercial environments
- Flexible use across prime, standby, and base-load applications
- Durable design capable of long-term continuous operation

Manufacturer	Caterpillar
Model	3516
Year	2005
Condition	Used
Location	Asia
Qty Available	6 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010700
Wattage	2 MW
Hours	500
Frequency	50 Hz
Fuel Type	Diesel
Voltage	10000
Balance of Plant Available? (BOP)	-
