2.6 MW 2017 New MTU 20V4000G63L Diesel Generator Sets

2.6 MW 2017 New MTU 20V4000G63L Diesel Generator Sets

Description

High-capacity diesel generator sets, manufactured in 2017 and available in brand-new condition. These premium units are designed for heavy-duty industrial and power generation applications requiring exceptional reliability, performance, and long operating life. The units combine robust mechanical construction with intelligent engine management to ensure stable power output and efficient fuel consumption under varying load conditions.

These generator sets are suitable for both continuous and standby operation, offering flexibility across a wide range of sectors including utilities, mining, oil & gas, manufacturing, and data centers.

KEY FEATURES:

- **Rated output:** 2.6 MW (2600 kW) continuous power
- **Emission standard:** Low-emission design compliant with international standards
- **Mounting:** Skid-mounted design for ease of transport and installation

ADVANTAGES

- High fuel efficiency resulting in lower lifecycle operating costs
- Rugged design suitable for continuous base load or standby power applications
- High fuel efficiency resulting in lower lifecycle operating costs

Manufacturer	MTU
Model	20V4000G63L
Year	2017
Condition	New
Location	Asia
Qty Available	1 Unit
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010230
Wattage	2.6 MW
Hours	Zero
Frequency	50 Hz
Fuel Type	Diesel
Voltage	400 Volts
Balance of Plant Available? (BOP)	-
