## 1 MW 2021 Used Jenbacher JMS 320 GS-B.L Natural Gas Generator Set

# 1 MW 2021 Used Jenbacher JMS 320 GS-B.L Natural Gas Generator Set

## Description

This 1 MW natural gas generator set, manufactured in 2021, is built around a robust medium-speed reciprocating engine designed for continuous, prime, or peaking duty in industrial and commercial power applications. The unit delivers stable electrical output while maintaining high fuel efficiency and low emissions, making it suitable for distributed generation, cogeneration, and facility-level energy systems. Its modular engine-generator arrangement supports straightforward installation, integration with existing plant infrastructure, and reliable long-term operation.

### KEY FEATURES:

- **1 MW electrical output** suitable for stand-alone or parallel operation with larger power systems.
- **Medium-speed engine design** for balanced efficiency, durability, and reduced mechanical stress.

### ADVANTAGES

- **High operational efficiency** results in reduced fuel consumption and lower lifecycle operating costs.
- **Lower emissions profile** compared to liquid-fuel generators, aiding compliance with environmental standards.

Manufacturer	Jenbacher
Model	JMS 320 GS-B.L
Year	2021
Condition	Used
Location	Europe
Qty Available	1 Unit
Category	Natural Gas Generators
Subcategory	1 – 9 MW
Stock Number	USP010910
Wattage	1 MW
Hours	15000 hours
Frequency	50 Hz
Fuel Type	Natural Gas
Voltage	400 Volts
Balance of Plant Available? (BOP)
