Harnessing Energy for Life

4.8 MW 2016 New Caterpillar C280-16 Diesel Generator Sets

4.8 MW 2016 New Caterpillar C280-16 Diesel Generator Sets

Description

These generator sets are powered by large-bore, medium-speed 16-cylinder engines designed specifically for continuous, high-output power generation. Built to deliver reliable performance under demanding operating conditions, they are well suited for heavy industries, mining operations, marine auxiliary use, and independent power plants. With a robust design, the sets combine durability, efficiency, and modern control technology, making them ideal for both prime power and standby applications.

KEY FEATURES:

- **Prime Output:** 4.8 MW per set
- **Generator:** High-capacity alternator with automatic voltage regulation
- **Construction:** Skid-mounted heavy-duty base frame for stability and ease of installation

ADVANTAGES

- **Reliable Performance:** Proven design ensures consistent power delivery in demanding environments.
- **Application Flexibility:** Suitable for prime, continuous, or standby duty
- **Robust and Durable:** Engineered for continuous heavy-duty operation with long service intervals..

Manufacturer	Caterpillar
Model	C280-16
Year	2016
Condition	New
Location	South America
Qty Available	20 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010435
Wattage	4.8 MW
Hours	Zero
Frequency	60 Hz
Fuel Type	Diesel
Voltage	6300 Volts
Balance of Plant Available? (BOP)
