1.5 MW 1991 Used Wartsila 9FHD240G Marine Diesel Engine

1.5 MW 1991 Used Wartsila 9FHD240G Marine Diesel Engine

Description

This marine diesel engine is a robust and proven medium-speed unit designed for marine propulsion and auxiliary power generation. It delivers reliable performance, efficient fuel consumption, and a durable mechanical design suitable for continuous operation in demanding maritime environments.

The 9-cylinder configuration provides balanced power output with smooth operation, ensuring stable performance under varying load conditions. Suitable for propulsion, onboard power generation, or auxiliary applications, this engine offers both flexibility and dependability for vessel operators.

KEY FEATURES:

- Rated output: 1.5 MW
- Designed for propulsion and auxiliary power applications
- Reliable performance under continuous duty

ADVANTAGES

- Proven track record in marine operations with dependable reliability
- Capable of stable performance under continuous and varying load conditions
- Flexible use in both propulsion and onboard power generation

Manufacturer	Wartsila
Model	9FHD240G
Year	1991
Condition	Used
Location	Asia
Qty Available	3 Units
Category	Marine Diesel Engine
Subcategory	1 – 9 MW
Stock Number	USP010843
Wattage	1.5 MW
Hours	40000
Frequency	50 Hz
Fuel Type	Diesel
Voltage	-
Balance of Plant Available? (BOP)	-
