2 MW 2025 New Caterpillar 3516B Diesel Generator Sets

2 MW 2025 New Caterpillar 3516B Diesel Generator Sets

Description

This diesel generator set is a high-performance power solution designed for continuous, prime, or standby applications. With a prime power rating of 2,000 kVA (approximately 1,600 kW) at 50 Hz and 1,800 rpm, this generator set offers reliable and efficient performance for various industrial and commercial applications.

This generator set is equipped with the EMCP 4.4 control panel, offering advanced monitoring and protection features. It provides real-time diagnostics, remote monitoring capabilities, and the ability to integrate with multiple generator sets for paralleling applications.

KEY FEATURES:

- Power Output: 2,000 kVA (approximately 1,600 kW)
- Emissions Compliance: Designed to meet low emissions standards, making it suitable for use in regions with stringent environmental regulations.

ADVANTAGES

- Versatility: Suitable for a wide range of applications, including data centers, manufacturing facilities, and critical infrastructure projects.
- Fuel Efficiency: The electronic unit injection fuel system and Adem™3 governor optimize fuel consumption, reducing operating costs.

Manufacturer	Caterpillar
Model	3516B
Year	2025
Condition	New
Location	North America
Qty Available	3 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010576
Wattage	2 MW
Hours	Zero
Frequency	60 Hz
Fuel Type	Diesel
Voltage	2 MW
Balance of Plant Available? (BOP)	The second second
