2.2 MW 2010 New Jenbacher J616 GS Natural Gas Generator Set

2.2 MW 2010 New Jenbacher J616 GS Natural Gas Generator Set

Description

This natural gas generator set is designed for high-efficiency and continuous power generation. The J616 GS is widely used in industrial facilities, utilities, and combined heat and power (CHP) plants due to its strong performance, fuel flexibility, and durability. Its modular design, robust construction, and advanced control systems allow for stable operation under varied load conditions, while maintaining low emissions and reduced operating costs.

KEY FEATURES:

- Electrical output: 2,200 kW (2.2 MW)
- Designed for continuous and CHP operation
- Fuel flexibility: operates on natural gas and special gases (biogas, landfill gas, sewage gas, etc.)

ADVANTAGES:

- **High efficiency:** Reduced fuel costs through excellent electrical and thermal efficiency
- **Unused condition (2010 new):** Offers performance and longevity of a new engine with availability at competitive cost

Manufacturer	Jenbacher
Model	J616 GS
Year	2010
Condition	New
Location	Asia
Qty Available	1 Unit
Category	Natural Gas Generators
Subcategory	1 - 9 MW
Stock Number	USP010847
Wattage	2.2 MW
Hours	Zero
Frequency	50 Hz
Fuel Type	Natural Gas
Voltage	12500 Volts
Balance of Plant Available? (BOP)	-
