1.5 MW 2014 New Caterpillar 3516C Diesel Generator Sets (Containerised)

1.5 MW 2014 New Caterpillar 3516C Diesel Generator Sets (Containerised)

Description

These generator sets are built around the 3516C engine, a 16-cylinder, four-stroke, turbocharged and aftercooled unit designed for heavy-duty power generation. Packaged in a fully integrated containerised module, the sets are engineered for ease of transport, rapid installation, and reliable operation across a wide range of environments.

The containerised design incorporates the engine, alternator, cooling system, fuel system, exhaust system, and control panel in a single unit, offering a complete power solution with minimal site preparation. With new build status and a robust configuration, the sets are ideally suited for industrial facilities, mining sites, utilities, or standby applications where dependable, high-capacity power is required.

KEY FEATURES:

- **Power Output:** 1.5 MW per set
- **Containerised Package:** Integrated container housing engine, alternator, cooling, fuel, and control systems
- **Generator:** Heavy-duty alternator with automatic voltage regulation

ADVANTAGES

- **Turnkey Solution:** Complete power package delivered in a single module reduces installation complexity.
- **Compact and Portable:** Containerised design enables fast installation and relocation with minimal site work.

Manufacturer	Caterpillar
Model	3516C
Year	2014
Condition	New
Location	Asia
Qty Available	4 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010459
Wattage	1.5 MW
Hours	Zero
Frequency	60 Hz
Fuel Type	Diesel
Voltage	600 Volts
Balance of Plant Available? (BOP)	-
