3.4 MW 2012 Used Jenbacher J 620 Natural Gas Generator Set

3.4 MW 2012 Used Jenbacher J 620 Natural Gas Generator Set

Description

This natural gas generator set is a large-capacity gas-fired unit designed for efficient and reliable continuous power generation. A 20-cylinder, turbocharged natural gas engine engineered for high electrical efficiency, fuel flexibility, and reduced emissions. With an output of 3.4 MW, this generator set is well-suited for industrial facilities, utilities, and combined heat and power (CHP) projects, as well as renewable gas applications such as biogas or landfill gas. The unit incorporates Jenbacher’s advanced control and monitoring system, enabling precise engine management, optimized combustion, and enhanced operational safety.

KEY FEATURES:

- Rated output: 3.4 MW (3400 kW) continuous duty.
- High electrical efficiency with optimized combustion system.
- Capable of operating on natural gas and renewable gases (biogas, landfill gas, etc.).

ADVANTAGES :

- Lower emissions support environmental and regulatory compliance.
- High efficiency reduces fuel consumption and operating costs.
- Robust, durable design ensures reliable long-term operation.

Manufacturer	Jenbacher
Model	J620
Year	2012
Condition	Used
Location	Europe
Qty Available	1 Unit
Category	Natural Gas Generators
Subcategory	1 – 9 MW
Stock Number	USP01062
Wattage	3.4 MW
Hours	65000
Frequency	50 Hz
Fuel Type	Natural Gas
Voltage	10500 Volts
Balance of Plant Available? (BOP)	-
