4.3 MW 2014 New Bergen B32 40L9ACD Diesel Generator Sets

4.3 MW 2014 New Bergen B32 40L9ACD Diesel Generator Sets

Description

These generator sets are medium-speed, four-stroke design optimized for industrial and marine power generation. Known for its robust construction, reliability, and fuel efficiency, the Bergen B32 series is suitable for both continuous and standby power applications. The engines provide stable and consistent power output under varying load conditions, making them ideal for industrial plants, offshore platforms, and marine vessels requiring dependable energy.

Equipped with advanced electronic controls, these generator sets ensure precise engine management, monitoring, and protection. The design emphasizes low maintenance requirements and extended service intervals, providing cost-effective operation and high availability over the lifecycle of the unit.

KEY FEATURES:

- Rated output: 4.3 MW
- Heavy-duty construction for continuous industrial and marine operation
- Suitable for both prime and standby power applications

ADVANTAGES

- Flexible application across various load profiles and operating conditions
- High fuel efficiency reduces operating costs
- Designed for low maintenance and easy serviceability

Manufacturer	Bergen
Model	B32 40L9ACD
Year	2014
Condition	New
Location	Asia
Qty Available	4 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010179
Wattage	4.3 MW
Hours	Zero
Frequency	50 Hz
Fuel Type	Diesel
Voltage	10500 Volts
Balance of Plant Available? (BOP)	-
