## 13 MW 2022 New Siemens SGT-400 Natural Gas Turbine Generator Set

# 13 MW 2022 New Siemens SGT-400 Natural Gas Turbine Generator Set

## Description

The unit is a brand-new industrial gas-turbine generator set rated for approximately 13 MW output (simple-cycle, natural-gas fuel) in a turnkey genset package. It is designed for utility power generation, industrial power island applications, or mechanical drive/dedicated generator duty. The unit is a proven twin-shaft gas turbine platform, suitable for on-shore or off-shore operations, and offers high reliability, compact footprint, and proven component base.

### KEY FEATURES:

- Rated output: approx. 13 MW (ISO conditions)
- Compact modular package for easy installation and transport
- Configuration: Twin-shaft design with Dry Low NOx combustion system

### ADVANTAGES

- High efficiency and low emissions with advanced DLE combustion
- Compact footprint for reduced installation and maintenance costs
- Suitable for continuous, peaking, or CHP applications

Manufacturer	Siemens
Model	SGT-400
Year	2022
Condition	New (Unused)
Location	Europe
Qty Available	4 Units
Category	Natural Gas Turbines
Subcategory	10 – 99 MW
Stock Number	USP010889
Wattage	13 MW
Hours	Zero
Frequency	50/60 Hz
Fuel Type	Natural Gas
Voltage	230 Volts
Balance of Plant Available? (BOP)	-
