53 MW Refurbished Pratt & Whitney FT4C-1D (DF) Diesel Turbine Generator Sets

53 MW Refurbished Pratt & Whitney FT4C-1D Diesel Turbine Generator Sets

Description

This diesel turbine generator Set consists of two units that can operate on dual fuel, primarily operating on diesel. Zero hours since refurbishment, ensuring like-new performance. Designed for large-scale industrial or utility power generation, the FT4C-1D is based on proven Pratt & Whitney turbine technology. The generators are refurbished and immediately available for shipping and installation, offering reliable, high-output performance with flexible fuel use. Ideal for peaking power, emergency backup, grid support, industrial power generation, and remote or off-grid operations requiring fast deployment, high output, and dual-fuel flexibility.

KEY FEATURES:

- **Operating Hours** - Zero hours since refurbishment
- **Dual Fuel Capability**
- **Condition** - Refurbished

ADVANTAGES

- **Availability** - Units are available for prompt shipping and installation
- **High Power Output** - Suitable for large-scale industrial and utility power generation needs

Manufacturer	Pratt & Whitney
Model	FTAC-1D
Year	NA
Condition	Refurbished
Location	USA
Qty Available	2
Category	Natural Gas Turbine
Subcategory	10-99 MW
Stock Number	USP010726
Wattage	53 MW
Hours	Zero
Frequency	60 Hz
Fuel Type	Dual Fuel – Currently only running on Diesel
Voltage	13 800
Balance of Plant Available? (BOP)	-
