1 MW 1995 Used Wartsila 16V175 SG2 Natural Gas Generator Sets

1 MW 1995 Used Wartsila 16V175 SG2 Natural Gas Generator Sets

Description

The natural gas generator sets are medium-speed reciprocating gas engine generator units built for reliable power generation in industrial and commercial applications. Powered by the Wärtsilä 16V175 SG2 engine, these sets are designed to deliver 1 MW of continuous electrical output using natural gas as the primary fuel. Manufactured in 1995, the units remain suitable for standby, baseload, or cogeneration applications depending on site requirements. This series of engines are recognized for robust construction, durability, and efficient operation under varying load conditions.

KEY FEATURES:

- Rated output: 1 MW
- Medium-speed reciprocating gas engine design
- Generator integrated for stable and reliable electrical output

ADVANTAGES:

- Natural gas operation ensures cleaner emissions and lower fuel costs compared to diesel
- Durable engine design capable of withstanding demanding operating conditions

Manufacturer	Wartsila
Model	W16V175 SG2
Year	1995
Condition	Used
Location	Asia
Qty Available	5 Units
Category	Natural Gas Generators
Subcategory	1 - 9 MW
Stock Number	USP010760
Wattage	1 MW
Hours	NA
Frequency	50 Hz
Fuel Type	Natural Gas
Voltage	400
Balance of Plant Available? (BOP)	-
