Harnessing Energy for Life

2 MW 2025 New Cummins  
DQKAB Diesel Generator Set

# 2 MW 2025 New Cummins DQKAB Diesel Generator Set

## Description

This diesel generator set is a high-capacity, industrial-grade power solution designed for continuous, standby, and peak-shaving applications. Engineered for 2025-era emissions standards and operational reliability, it integrates a heavy-duty diesel engine with a matched alternator, advanced control system, and robust ancillary components. It is suitable for commercial facilities, data centers, hospitals, manufacturing plants, utilities support, and large-scale infrastructure projects requiring dependable electrical power.

### KEY FEATURES:

- Rated Power Output:** 2 MW (2000 kW) at rated speed and voltage
- Emissions Compliance:** Designed to meet applicable 2025 emissions regulations
- Control System:** Integrated digital controller with protection, monitoring, and remote communication interfaces

### ADVANTAGES

- Scalability:** Suitable for paralleled systems or integration into larger power networks.
- Operational Flexibility:** Configurable for varying duty profiles including continuous, peak shaving, and emergency standby.
- Maintenance Efficiency:** Simplified access and long service intervals reduce total cost of ownership.

<b>Manufacturer</b>	Cummins
<b>Model</b>	DQKAB
<b>Year</b>	2025
<b>Condition</b>	New
<b>Location</b>	North America
<b>Qty Available</b>	28 Units
<b>Category</b>	Diesel Generators
<b>Subcategory</b>	1 – 9 MW
<b>Stock Number</b>	USP010948
<b>Wattage</b>	2 MW
<b>Hours</b>	Zero
<b>Frequency</b>	60 Hz
<b>Fuel Type</b>	Diesel
<b>Voltage</b>	277/480 Volts
<b>Balance of Plant Available? (BOP)</b>	-
