Harnessing Energy for Life

## 42.8 MW Used GE LM6000 PC Natural Gas Generator Sets

# 42.8 MW Used GE LM6000 PC Natural Gas Generator Sets

## Description

This asset offers key benefits and advantages, including high efficiency, fast startup, and reliable performance. It can run on different fuel types, making it versatile and adaptable. Its compact design allows for easy installation and maintenance, helping to reduce downtime. Built for long-lasting and dependable power, this asset is a trusted choice for many industries.

USP&E offers comprehensive service support, including maintenance and expert assistance, to ensure reliable performance and long-term efficiency.

### KEY FEATURES:

- **Built for Longevity** - Engineered for long-term, continuous-duty performance
- **Fast Startup** – Designed to reach operational capacity quickly
- **High Efficiency** - Optimised for efficient power generation

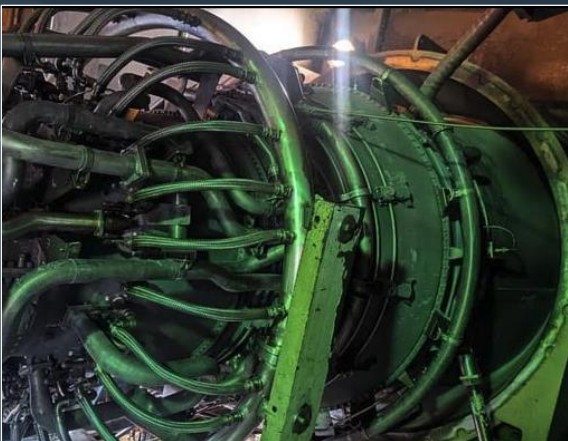

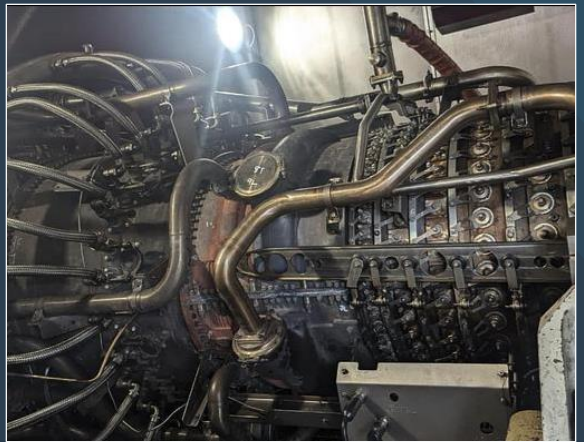

### ADVANTAGES

- **Reduced Downtime** - Quick startup and service-friendly design help minimise operational delays
- **Reliable Performance** – Delivers consistent power output in various industrial settings

Manufacturer	GE
Model	LM600 PC
Year	GT3: NA; GT4: 1998; GT5: 2012; GT6: 2002; Spare Engine: 2002
Condition	Used
Location	Africa
Qty Available	4 Units and One Spare Engine
Category	Natural Gas Generators
Subcategory	10 - 99 MW
Stock Number	USP010592
Wattage	42.8 MW per unit
Hours	46 000 per unit 47 000 – spare unit
Frequency	50 Hz
Fuel Type	Natural Gas
Voltage	NA
Balance of Plant Available? (BOP)	-
