2 MW 2000 Used Caterpillar 3516B Diesel Generator Set

2 MW 2000 Used Caterpillar 3516B Diesel Generator Set

Description

This diesel generator set, manufactured in 2000, is a reliable and durable power solution suited for prime or standby applications. Designed for efficient operation and long service life, it offers dependable performance in industrial, commercial, and utility settings. The generator is built with Caterpillar’s proven heavy-duty engine technology, ensuring consistent power output and ease of maintenance. Its robust construction allows for continuous operation in challenging environments, while the system’s design emphasizes fuel economy and operational safety. The unit remains a preferred choice for projects requiring proven performance and long-term cost efficiency.

KEY FEATURES:

- Rated output: 2 MW (2000 kW)
- Low operating hours with well-maintained condition
- Compatible with a wide range of fuel and exhaust configurations

ADVANTAGES

- High fuel efficiency and low maintenance requirements
- Quick start-up and stable power delivery
- Suitable for various installations including power plants, mining, and backup systems

Manufacturer	Caterpillar
Model	3516B
Year	2000
Condition	Used
Location	Asia
Qty Available	1 Unit
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010890
Wattage	2 MW
Hours	800
Frequency	
Fuel Type	Diesel
Voltage	480 Volts
Balance of Plant Available? (BOP)	-
