

# SPECIFICATIONS

## 1.4 MW 2011 Used Caterpillar 3516 Diesel Generator Set (Containerised)

# 1.4 MW 2011 Used Caterpillar 3516 Diesel Generator Set (Containerised)

## Description

This diesel generator set is a containerized unit designed for reliable industrial and commercial power generation. Equipped with a robust V16, four-stroke diesel engine, it delivers stable electrical output for continuous, prime, or standby applications. The containerized design provides a compact, weather-protected housing, allowing for easy transport, rapid deployment, and flexible installation in a wide range of environments.

The generator set features a heavy-duty alternator and advanced electronic control system for precise engine monitoring, protection, and optimized performance.

### KEY FEATURES:

- Rated output: 1.4 MW
- Heavy-duty alternator for stable power delivery
- Suitable for continuous, prime, and standby power applications

### ADVANTAGES

- Reliable and robust performance in industrial and commercial environments
- Compact containerized design allows easy transport and rapid deployment
- High fuel efficiency reduces operating costs
