## 7.5 MW 2006 Used Caterpillar 16CM32 Diesel Generator Sets

# 7.5 MW 2006 Used Caterpillar 16CM32 Diesel Generator Sets

## Description

This diesel generator set is a heavy-duty, industrial-grade power solution designed for demanding continuous or standby applications. Operating at 50 Hz and 750 RPM, it delivers approximately 7.5 MW of reliable output at 11,000 V—making it suitable for large-scale power needs in sectors such as mining, oil & gas, utilities, and construction. It features a robust diesel engine architecture with modular design, efficient cooling, and high-quality components, ensuring durability, serviceability, and global support

### KEY FEATURES:

- Modular design with engine-mounted pumps and filters
- 7.5 MW electrical output
- High-efficiency turbocharging and intensive cooling system

### ADVANTAGES:

- Efficient installation & operation
- High operational flexibility: compliant with IMO Tier II emissions and capable of marine and land-based applications alike.

Manufacturer	Caterpillar
Model	16CM32
Year	2006
Condition	Used
Location	Asia
Qty Available	4 Units
Category	Diesel Generators
Subcategory	1 – 9 MW
Stock Number	USP010566
Wattage	7.5 MW
Hours	35000
Frequency	50 Hz
Fuel Type	Diesel
Voltage	11000 Volts
Balance of Plant Available? (BOP)	-
