6 MW 2006 Used Wartsila 18V32LN HFO Power Plant Generator Set

6 MW 2006 Used Wartsila 18V32LN HFO Power Plant Generator Set

Description

This 6 heavy fuel oil (HFO) generator set, manufactured in 2006, offers robust and efficient power generation for industrial and utility-scale applications. With approximately 12,000 operating hours, this used unit is designed for continuous duty, providing reliable performance in environments where HFO is the preferred fuel source.

This generator set is ideal for applications requiring a reliable power source, such as remote industrial sites, mining operations, and backup power for critical infrastructure. Its robust design and fuel efficiency make it a valuable asset for companies seeking to optimize their energy production capabilities.

KEY FEATURES:

- **Rated Output:** 6 MW (6,000 kW)
- 50 Hz frequency operation suitable for standard grid integration
- Integrated fuel conditioning and pre-heating systems for HFO

ADVANTAGES

- High reliability and robust design for continuous industrial operation
- Capable of stable performance under heavy loads and varying conditions
- Optimized fuel consumption for cost-effective long-term use

Manufacturer	Wartsila
Model	18V32LN
Year	2006
Condition	Used
Location	Asia
Qty Available	1 Unit
Category	HFO Generators
Subcategory	1 – 9 MW
Stock Number	USP010353
Wattage	6 MW
Hours	12000 hours
Frequency	50 Hz
Fuel Type	Heavy Fuel Oil
Voltage	11000 Volts
Balance of Plant Available? (BOP)	-
